

Capabilities Statement

Cage Code: 62860

CCR: Central Contract Registered

NAICS Codes: 421120, 421740, 421810, 423120

Penn Detroit Diesel Allison LLC. has been a major supplier of heavy duty truck, tracked, and other off highway and industrial replacement parts to the federal government since 1979. In addition to distributing products for MTU Detroit Diesel, Allison Transmissions, and General Motors Special Parts Operations, we represent additional name brand peripheral manufactures supplying genuine OEM and aftermarket parts as well as kits at competitive pricing.

As we approach our 30 year anniversary as a distributor to this market, we have been recognized on numerous occasions by our customers for our on time delivery and overall performance as a quality vendor. We are honored to serve on various committees established by our customers for the common purpose of improving relationships between procurement activity and vendor community in serving our ultimate end user, the Federal Government.

Penn Detroit Diesel Allison LLC. operates six locations in Pennsylvania, one in New Jersey, three locations in New York, and single locations in Massachusetts and California with a total company employment of approximately 470 personnel.

Penn Detroit Diesel Allison LLC. Government Services Department has a 60,000 square foot warehouse in York Haven Pennsylvania for receiving, inventory, packaging and shipping with additional space for expansion. We provide MIL-STD2073 packaging and MIL-STD129 bar coding/labeling, a site for Government Source Inspections, and have military compatible RFID capabilities.
